**Detailed Key Features of the application:**

1. **Learning Management System (LMS):**  
Provides access to class schedules, attendance records, and training videos uploaded by faculty for a seamless academic experience.
2. **Video Lectures:**  
Students can view training and lecture videos uploaded by faculty members, with a search option for easy navigation.
3. **Hand Book:**  
Chapter-wise handouts and study materials can be accessed from the **JIS Group repository**, enabling students to download or view them at their convenience.
4. **Virtual Lab:**  
Offers simulation modules for lab experiments, allowing students to practice and understand lab exercises virtually.
5. **Library Module:**  
Tracks book issues, returns, and reservations, with a search function to find books by title, author, or subject.
6. **Profile Management:**  
Students can view and update personal information, such as education and contact details, and monitor their academic records.
7. **Student Ledger:**  
Provides access to financial information, enabling students to view their ledger and related transactions.
8. **Notifications:**  
One-way communication between faculty/administration and students, keeping students updated with important announcements.

All the students are required to download the App immediately to utilize college features effectively.
